
e2 Consulting Inc.
Efficiency + Effectiveness

**ONLINE
CERTIFIED LEAN SIX SIGMA YELLOW BELT
(CLSSYB) Training & Certification Course**

**July 10, 17, & 24, 2021
3 Consecutive Saturdays
9:00am-5:00pm
Via ZOOM**

Rationale:

Lean Six Sigma is a process improvement methodology that combines the benefits of both Lean techniques and Six Sigma to help companies streamline operations, increase value and reduce waste. One of the big gains of Lean Six Sigma is an increase in employee involvement through their participation on process improvement teams designed to help them improve processes and increase value for their customers, internal and external.

It is in this context that the ONLINE CERTIFIED LEAN SIX SIGMA YELLOW BELT (CLSSYB) Training & Certification Course is being offered as a key initiative of the e² Consulting Inc. - Efficiency + Effectiveness. It is intended to provide certification course to professionals who want to enhance their skills in developing, implementing, and managing quality through 6 sigma projects in their organizations.

It is a 24-hour online course program focuses on the fundamental knowledge, and skills necessary to develop and implement lean 6 sigma projects with the use of its principles, practices, tools, and approaches that will result to continuous improvement of the organizations.

The course is participative and one of the aims will be to enable the participant to start up a lean 6 sigma program in their respective organizations after the course and to plan the role out.

The course is competency based and will incorporate online discussions, instructions, and workshop exercises.

Course Objectives:

At the end of the course, the participants will be able to:

- Be knowledgeable on the principles of lean six sigma
- Acquire the skills on the use of tools in the lean six sigma improvement process
- Be ready in obtaining a certification on lean six sigma yellow belt
